DECORATIONS AND ALTERATIONS REVIEW PROCESS

THE START DATE OF ANY ALTERATION IS STRICTLY CONTINGENT UPON ITS POTENTIAL IMPACT ON THE QUALITY OF LIFE OF OTHER UNIT OWNERS AND BUILDING OPERATIONS. THEREFORE, THE START DATE OF A PROJECT MAY BE DELAYED/POSTPONED AT THE SOLE AND UNILATERAL DISCRETION OF THE BOARD OF MANAGERS.

In order to ensure that your decoration or alteration review process proceeds expeditiously, we have prepared the following information to clearly explain the process. It is recommended that you familiarize yourself with all applicable policies, procedures and agreements, prior to executing any agreements with contractors and/or suppliers.

All work falls within one of two categories:

Decorations - Including, but is not limited to, painting, wall covering, refinishing of floors and other cosmetic work. Generally, will not require any approval by the engineer for the Building nor the Board of Managers, but work must comply with the Condominium's policies and procedures.

Alterations - Any type of construction. Will require approval by the engineer for the Building and the Board of Managers and work must comply with Building policies and procedures. Please review the attached *Alteration Policies and Procedures* prior to planning your alteration.

STEPS OF THE REVIEW PROCESS

A. PROVIDE A WRITTEN EXPLANATION OF CONTEMPLATED WORK:

Decorations - A letter outlining the work and estimated time of completion. Skip to and comply with Steps 6, below and remit a Decoration Processing fee, if applicable, payable to Olympic Tower Condominium.

Alterations - Submit scope of work and specifications, one electronic set of stamped architectural plans, **in PDF or CAD file format**, project flow chart/construction schedule (outlining each phase of construction) and contact information for Unit Owner's architect to the Alteration Administrator. Building's Architect will review and formulate comments, at Unit Owner's expense.

B. OLYMPIC TOWER CHIEF ENGINEER WALKS THROUGH UNIT WITH INITIAL SET OF PLANS:

Chief Engineer reviews plans, scope of work and walks through unit in order to formulate any comments or concerns that will be forwarded to Building's Architect.

C. UNIT OWNER'S ARCHITECT ADDRESSES ALL BUILDING ARCHITECT'S ISSUES:

- a. The amount of time necessary to complete this phase of the process is dependent upon the scope of work and completeness of the original submission. An Alteration

Administrator will administrate the review process. All plans and review comments will flow through the Alteration Administrator for distribution to the appropriate parties.

- b. The Unit Owner may begin the NYC Department of Building (NYC DOB) permit application process and the managing agent will execute applicable permit applications, with the expressed understanding that such accommodation does not imply any alteration approval (actual or conceptual) and that no work will commence until all Condominium approvals and conditions have been satisfied provided Unit Owner submits an acknowledgement on his/her letterhead stating:

“This is to confirm that the signing of the forms by the building’s representative does not give us the permission to commence with the demolition or construction at the above referenced premises. The signing is for the purpose of expediting the building permit process. As discussed, we will await further permission from the NYC DOB and building management in order to commence with any demolition or construction as per approved plans.”

D. PLANS SUBMITTED TO THE ALTERATION COMMITTEE FOR APPROVAL:

After the Unit Owner’s architect has completely addressed and satisfied all of the Building architect’s issues, the plans are submitted to the Alteration Review Committee for approval.

Final plans must be submitted to Alteration Administrator blue print DOB approved fashion and in Adobe (PDF) or CAD electronic file format. A complete paper set must be maintained on the job site at all times.

E. COMMENTS FROM THE ALTERATION COMMITTEE ARE ADDRESSED:

Depending on the nature of the comments, either the Building’s architect and/or the Unit Owner’s architect will address the comments until all comments have been resolved and approved by the Alteration Review Committee.

F. FINAL PREPARATIONS TO ALLOW SCHEDULING AND WORK TO COMMENCE:

The following items must be submitted:

- a. Fully executed Alteration or Decoration Agreement, as applicable, **and full compliance with all preconstruction agreement provisions.**
- b. Certificate of Insurance naming Olympic Tower Condominium and their respective employees, Oxford 1 Asset Management (USA) Inc., ARVIC Realty Corp, Olympic Tower LLC, Olympic Tower Associates Inc., Williston S.A., Victory Real Estate Development Corp., Wells Fargo Bank, N.A., Douglas Elliman Property Management and their respective employees and Olympic Gold LLC.
- c. Final project flow chart/construction schedule.
- d. All applicable NYC Department of Building permits for planned work.
- e. Copy of contract between Unit Owner and General Contractor.
- f. Copy of General Contractor Indemnification Letter listing its NYC license number.

- g. Proof that General Contractor is an EPA Certified Renovator.
- h. A letter from the Unit Owner's architect attesting to the accuracy of the estimated project value or a copy of the contractor's proposal/bid with the project value listed.
- i. Copy of Unit Owner's letters to adjacent Unit Owners and residents of the same floor.
- j. Remit Alteration Processing Fee – Payable to Olympic Tower Condominium
- k. Remit Alteration Deposit – Payable to Olympic Tower Condominium along with completed W-9.
- l. **Submit project plans in PDF format after each review, along with the final DOB submittal.**

ALTERATIONS - PROCEDURES AND FEES

1. TIME AT WHICH AN ALTERATION MAY COMMENCE:

No work can commence until: All permits and approvals are in place; All preconstruction Alteration Agreement provisions have been met; all parties have executed the Alteration Agreement; the Alteration Administrator has scheduled a start date and a "kick-off" meeting with the Chief Engineer has been completed. Subject to the scope of work, a typical Alteration should be completed within one-hundred twenty (120) days.

Factors such as the location and scope of work of your project, as it relates to other projects currently underway (in scope, location within the building, number of projects) and other common element building projects all are taken into consideration. The Condominium will not permit an alteration that places any one Unit Owner in a position of having more than one adjacent (side, above or below) alteration underway, at any one given time.

2. DESIGN POLICIES AND PROHIBITIONS:

- a. No channeling of floor, wall, or ceiling slabs.
- b. No "wet areas" over "dry areas" (i.e. no bathrooms over libraries).
- c. Same room use over same room use (i.e. bedroom over bedroom).
- d. No noisy use over quiet use (i.e. no fitness rooms over bedrooms).
- e. The architect for the unit owner must assure the Condominium, in writing, that any floor installations shall meet or exceed the New York City Code from a sound transmission and impact noise rating standpoint.
- f. Cement board type product (not moisture resistant "Greenboard") must be used throughout all bathrooms indicating wall removal and replacement.
- g. Washing machine hook-up installations must include: (a) Stainless steel braided water supply hoses; (b) an automatic water shut-off valve in the event of hose failure; (c) Check valves to prevent hot & cold water crossover (d) A waterproof pan with a curb and drain under the unit(s).
- h. The installation of a whirlpool, Jacuzzi, any motorized bathtub, or similar devices is permitted strictly at the Unit Owner's risk and with the expressed understanding that if the Condominium, in its sole and unilateral discretion, deems that the installation creates a nuisance, or other adverse effect to another unit owner(s), the Unit Owner hereby agrees to cease using the device by removing the motor.
- i. Walls surrounding a steam shower installations must provide for a vapor barrier.

- j. Steam generators must be located within a waterproof pan with curb and drain.
- k. Installation of garbage disposals is prohibited.
- l. Common Element space cannot be incorporated into the alteration without written Board approval.
- m. No wooden floors are permitted in bathrooms.
- n. Installations of kitchen exhaust (hood) fans are NOT permitted. Re-circulating hoods ARE permitted.
- o. Installations of bathroom exhaust fans are NOT permitted. Re-circulating fans ARE permitted.
- p. Any existing kitchen or bath fan motors connected to Building systems/ductwork must be REMOVED.
- q. Only dryer exhaust is permitted to be ducted into Building dryer exhaust system.
- r. Whenever installing new shower body, contractor must install two (one hot + one cold) brass check valves.
- s. No space above the vertical fan coil units (in the vertical chase/shaft area that house the chilled & hot water supply and return HVAC water lines) can be reclaimed or breached for “built-ins” or other accessories.
- t. All motorized valves and thermostats for each vertical fan coil unit in the premises must be restored to working order and new isolation ball valves (Watts or similar) must be installed if existing valves are not functioning, at the time the motorized valves are replaced. It is highly *recommended* HVAC equipment installed when the building was first constructed or HVAC equipment that is thirty or more years old be replaced with the Building Standard specification. House Rule 35 (see Rider 11) stipulates when HVAC equipment *MUST* be replaced.
- u. Whenever motorized and/or shutoff valves for the chilled/hot water supply and return HVAC water lines are exposed, replaced or plans call for the installation of a built-in in such a way that would block access to said valves, an access panel must be installed and the built-in must be designed for easy removal in the event access to the valves are required.
- v. Contractor must remove existing paper over fiberglass insulation on any chilled water supply and return HVAC water line whenever such lines are accessible and/or exposed, with Armorflex type rubber/waterproof insulation.
- w. Contractor must install moisture resistant “Greenboard,” (double layer, if necessary, to match existing thickness) whenever replacing wallboard surrounding the chilled/hot supply & return HVAC water lines.
- x. Unit owners who expose original and/or damaged drain traps, located in their unit, but servicing the unit above, must replace the traps at their expense, without charging the unit owner above.
- y. Bathroom basins must have design features to prevent overflows.

Other Recommendations, which are not required:

- z. Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.
